TWO ADMIT AREA CAMP BURGLARIES

Warren County law officers this week apprehended the two New York State men who, had been responsible for the greatest wave of camp burglaries ever perpetrated in this area.

Robert VanGuilder, 49, of Stockton, N. Y. and his brother, Ellsworth, 35, of 332 Steele street, Jamestown, pleaded guilty last night before Peace Justice Fred Berry to charges of burglary stemming from 43 "camp jobs" in Pittsfield, Broome, Chemung, and Limestone Townships.

Combining forces to apprehend the two criminals who worked under cover of darkness in isolated areas were State Trooper Corporal Joe Mastrian, Sheriff Larry Linder, Chief Deputy Sheriff Don Allen, Jr., and Jamestown police officers.

Local officers picked up Ellsworth VanGuilder the first of this week and Chautauque County law enforcement officers arrested Brother Robert Tuesday on a fugitive of justice warrant preferred by county officers. He waived extradition.

The two men, working together, spirited "thousands of dollars" worth of loot from broken in camps, particularly in the Deerfield Township area. Listed among the missing were TV sets, boots, fishing equipment, rifles, pistols, blankets, electric frying pans, drills, saws, mowers and food.

Sheriff Linder said the two (Turn to Page Fourteen)

Hurricane Watch Ordered for the Northeast Area

MIAMI, Fla. (AP)—A hurricane watch was ordered today for southeastern Massachusetts and Rhode Island as a storm with winds of 125 miles an hour moved almost due north in the Atlantic.

At 11 a.m. EST today, Hurricane Daisy was 110 miles southeast of Cape Hatteras, N.C.

The Weather Bureau calls a hurricane watch when a storm constitutes a possible threat. Persons in the watch area can continue their normal routines but are advised to keep in touch with advisories and be ready to take precautions if necessary.

Gale warnings were raised at 11 a.m. from Provincetown, Mass., south to Morehead City, N.C. Tides were about two feet higher than normal along the outer banks of the North Carolina coast.

The Weather Bureau expected the storm to move almost straight north this afternoon, passing east of Cape Hatteras. A turn to the north northeast and later towards the northeast should begin tonight or early Friday, the Weather Bureau said.

Asked whether the predicted northeast turn would take Daisy away from New England, the chief storm forecaster, Gordon Dunn, said it "all depends on how close she gets before she turns. At the moment, it looks like it can easily give Cape Cod and southeastern Massachusetts a fairly good brushing. It is too early to know how close it will come."

Only Physician in a Small Colorado Town Goes Berserk

SILVERTON, Colo. (AP)—The only doctor in this mountain town of 1,400 persons went berserk Wednesday and was wounded and captured after firing random shots at a group of children and two friends.

Dr. Charles O. Spencer, about 35, collapsed with a shattered rifle in his hands as officers and volunteers seized him.

His capture ended an afternoon flurry in which he fired at least eight shots. No one was hit. Dr. Spencer suffered metal splinters in the face and a bullet crease on his right leg.

He was taken to La Plata County Jail. No charges were filed. The battle ended outside the home of Roy Green when a friend of Green's, mechanic George Bingle, fired a single shot at the doctor. The bullet struck the barrel

Stepping Into High Court Chamber Like Entering a Cathedral During Prayer

By PAUL YOST

WASHINGTON (AP)—Stepping into the U. S. Supreme Court chamber is much like entering a cathedral during a moment of quiet prayer.

It's an almost silent marble sanctuary, exuding dignity and solemnity.

In this setting the black-robed justices today consider the Little Rock school integration case and its possibly far-reaching effects on racial problems.

Joint Air Defense Exercises Held by Nationalist Units

TAIPEI, Formosa (AP)—Nationalist and U. S. planes conducted joint air defense exercises today over the coast of Formosa as Red Chinese batteries continued to pound the Nationalist-held islands just off the coast of mainland China.

The announcement by the U. S.-Formosan command gave no details of the joint air maneuvers. But it obviously was designed to point up American backing for the Nationalists in hopes it would deter the Red Chinese from trying an invasion of the offshore islands.

As the Communist artillery attack on the Quemoy Island group pounded through its sixth day, Nationalist intelligence sources reported Red land and sea movements they interpreted as the prelude to an invasion attempt.

A Defense Ministry spokesman said the Reds battered Quemoy with more than 16,000 shells in the 19 hours before dawn and that sporadic shelling continued through the daylight hours.

The fact that the Reds have expected more than 100,000 pounds of shells added weight to the belief that an invasion attempt is imminent.

Pennsylvania Labor For Development Bill

HARRISBURG (AP)—The Pennsylvania Federation of Labor and the State CIO Council have joined other Pennsylvania groups in urging President Eisenhower to sign the Industrial Development Bill.

The plan provides for a 275 million dollar program to help bring industry to depressed areas. Pennsylvania could receive an estimated 45 million dollars in federal grants and loans if the measure becomes law and funds for it are allocated by the next Congress.

Butler County Motorist Is Killed in Accident

PITTSBURGH (AP)—A auto crashed into the rear of a tractor-trailer on Route 19 at Pine Creek Hill in McCandless Twp. Wednesday night, killing the driver, William Pinkerton, 25, of Mars, Butler County.

Police said Pinkerton was traveling alone and apparently did not see the slow-moving trailer in time to avoid hitting it. He died of a fractured skull.

Police identified the truck driver as John A. Smith, 56, of Pittsburgh, an employee of the Erie-Pittsburgh Motor Freight Co.

of Dr. Spencer's rifle, shattering it. The doctor fired one wild shot from the broken rifle and collapsed in the yard of the home.

Across the street is the two-story hospital where he has served as the town's only doctor for the past year. Chief of Police Milton Grey said Dr. Spencer had gained immense popularity since arriving here in the midst of last year's Asian flu epidemic.

The doctor, his wife and their two young sons made their home at the hospital.

The police chief said Dr. Spencer began his foray at mid-afternoon at a tavern and filling station three miles north of here, where he fired four shots for no apparent reason.

Later, he fired three shots at a group of children across the street from the hospital.

10th Jupiter Launching Is Big Success

CAPE CANAVERAL, Fla. (AP)

The Army has taken another big step toward making its Jupiter intermediate-range ballistic missile an operational war weapon.

The 10th Jupiter blasted 1,500 miles across the Atlantic Wednesday night. The Defense Department announced the test was a complete success.

The Jupiter launched was essentially the same as the rocket that will be used under tactical conditions, except that the warhead was not armed with a nuclear device.

The 69-foot missile, which will provide the big push for the Army's moon rocket, is expected to be deployed in Europe next December, together with the Air Force Thor ICBM.

The shoot also coincided with presentation of a semi-operational Jupiter to the first Air Force unit that actually will be assigned the weapon.

Authoritative sources said Brig. Gen. John A. Barclay, commander of the Army ballistic missile agency, was to turn the first Jupiter over to the Air Force 864th Strategic Jupiter Squadron in ceremonies at Redstone Arsenal, Huntsville, Ala.

The 864th will be given advanced training with the Jupiter before the unit is assigned overseas, probably on the European continent.

Three Members of the Air Force Die in Crash

WILKES-BARRE, Pa. (AP)—Three air force enlisted men were killed today when their car smashed into a tree about 20 miles from here.

The men, all airmen second class, were Frank W. Klemmas, 19, who listed his address as Scranton; Larry E. Baldwin, 21, of Seymour, Iowa, and Paul H. Haag, 21, of Richland Center, Wis. Klemmas' parents, Mr. and Mrs. William C. Klemmas, live in Dunellen, N.J.

Baldwin, who was driving, and Haag, were pinned in the wreckage. Klemmas was thrown to the highway.

The three were returning to Red Rock Air Force base when their car hit the tree on Route 115 after rounding a curve. There were no witnesses to the accident and it was not certain how it happened.

Steals From Auto To Secure Cell in Jail

PITTSBURGH (AP)—A 45-year-old Cleveland (Ohio) man said today there's nothing like a comfortable cell in prison to beat the high cost of living.

Police picked up Lawrence J. Smith for stealing a suitcase from an auto in a parking lot. Smith was waiting for them when they went to the lot to investigate the theft.

Officers filed a burglary charge against Smith after he said he had served several terms in prison and admitted stealing the suitcase. His explanation:

"I wanted to get caught so I could go back to prison. When you're in prison, you don't realize the high cost of living."

McDonald Endorsed by Braddock Steelworkers

PITTSBURGH (AP)—In a complete reversal of sentiment, United Steelworkers Local 1219 in nearby Braddock Wednesday night endorsed the administration of USW President David J. McDonald.

Some 18 months ago the same local voted 3 to 1 for Donald C. Rarick who unsuccessfully sought to unseat McDonald. Members of the local represent employees of the Edgar Thompson works of U. S. Steel Corp.

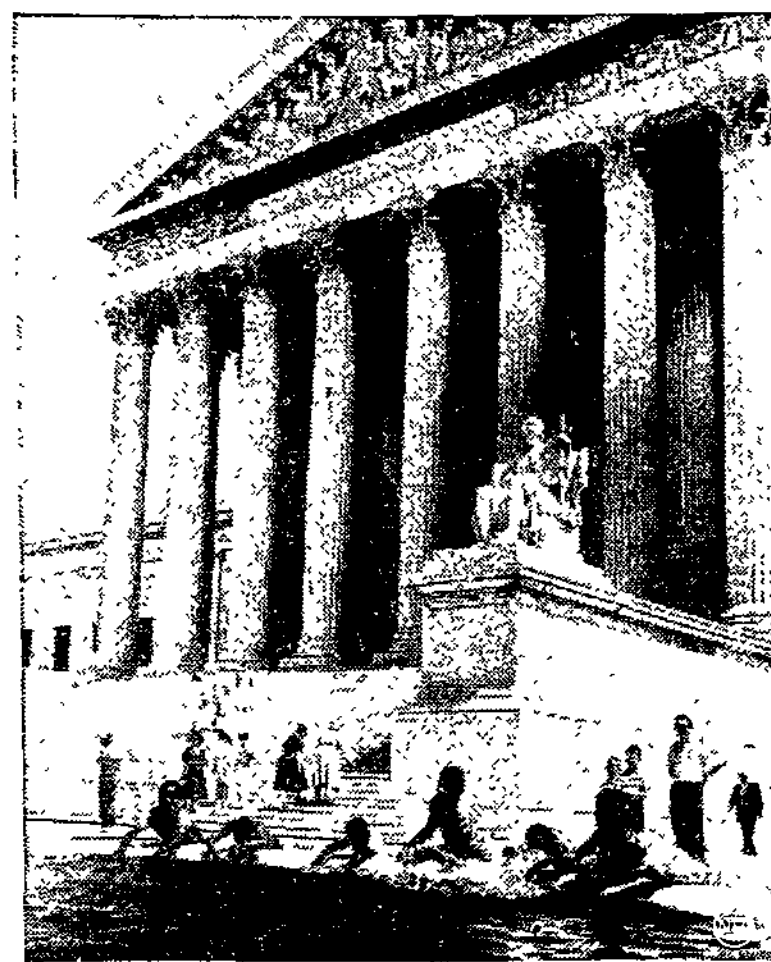

The local, which had been a staunch supporter of the Rarick-led movement to reduce dues, defeated several resolutions aimed at the McDonald administration. Among the resolutions was one proposing a \$2 monthly reduction in dues.

TO RENEW LICENSES

HARRISBURG (AP)—The State Insurance Department has reported it will automatically renew licenses of accredited insurance agents to expedite handling.

Francis R. Smith, insurance commissioner, said Wednesday that each insurance company would correct lists of its agents, and licenses would be automatically renewed for the agents.

Racket Probers Turn Attention To Circus World

By G. MILTON KELLY

WASHINGTON (AP)—Senate Rackets Committee probers turn to the circus and the carnival world today in their efforts to show the Teamsters Union has strewn a trail of violence in labor dealings.

The committee hopes to find out why several circuses closed down after a bitter 1956 dispute with the Teamsters. Most others, including the big Ringling Brothers, Barnum & Bailey Circus, discarded the canyons big top to save labor costs.

Officials of some eight circuses and carnivals were summoned to testify before the committee, which has been unfolding a story of widespread corruption and terrorism in Teamster affairs.

The committee received vague testimony several days ago telling of Teamster strong-arm men pulling down the stands at one circus, killing or injuring some persons. However, there was no disclosure where or when such an incident occurred.

The current phase of the hearings, concerned primarily with Teamster activities in the St. Louis area, will reach a climax Friday when Harold Gibbons, a union vice president, is called for questioning. Gibbons holds sway over Teamster affairs in the St. Louis area and his name has been linked with violence charges.

Hearing Opens in Litigation at Charlottesville

BULLETIN

CHARLOTTESVILLE, Va. (AP)—Corporation Court Judge George M. Coles today issued a temporary injunction forbidding the Charlottesville School Board from assigning any pupils, white or Negro, to city schools. The restraining order, identical with an injunction previously issued against the Norfolk School Board by two State Supreme Court justices, is effective today and continued in effect through October 15.

—Judge George M. Coles of Corporation Court opens a hearing today on a request that he enjoin the Charlottesville School Board from assigning pupils—white or Negro—to public schools.

The injunction petition, filed by attorneys representing two white parents, contends that the board's local pupil placement plan is "in violation and open disregard" of state law, which vests all pupil assignment powers with the Virginia Pupil Placement Board.

In a related development, the placement board suggested Wednesday that both the Charlottesville and Norfolk school boards (Turn to Page Fourteen)

Local Man Believed Drowning Victim

Jamestown, N. Y., police reported at 10:45 o'clock this morning that a body recovered from the Chataquo Creek near the corner of Harrison and Institute streets in that city is believed to be that of Bernard "Bunny" Hartnett, 47, whose home address is 802 West Fifth avenue, Warren. Relatives from Warren were in Jamestown when the paper went to press assisting the officers in completing identification. At one o'clock Jamestown police informed the Times-Mirror they were awaiting a decision from the coroner concerning the identity of the victim and information as to how he may have come to his death. Mr. Hartnett was born June 15, 1911, and has been a lifelong resident of the area.

Sixty Have Close Call in Accident To Giant Airliner

MINNEAPOLIS, Minn. (AP)—Sixty persons escaped today when a Northwest Orient Airlines plane burst into flame moments after takeoff and hurtled like a fireball into a farmyard.

At least 50 persons required hospital treatment, including Rep. Don Magnuson (D-Wash.). At least one was reported critically injured.

The 56 passengers reached safely through a hole in the fuselage as flames raged through the four-engine DCB that came to rest 30 feet from a farmhouse. It had ripped through a cornfield and knocked down three farm buildings.

One of the crew members tossed a baby into the arms of its waiting mother.

"It's a miracle that anybody got out of that plane," said Vincent Christian, living a few blocks (Turn to Page Fourteen)

JUSTICE DEPT SUPPORTS PETITION FROM COUNSEL FOR N.A.A.C.P. GROUP

BULLETIN

WASHINGTON (AP)—The Supreme Court opened an extraordinary integration session today—and found the government ranged firmly alongside the National Assn. for the Advancement of Colored People in urging "no delay" in the mingling of races at Little Rock Central High School.

The great maroon drapes behind the bench in the marble courtroom parted about noon and to the ancient cry of "Oyez"—Hear Ye—the justices walked to their seats.

It was the third crucial session on school segregation within half a decade, and specifically at issue was: Should integration at Central High resume forthwith, or be postponed 2½ years. That was the narrow issue but the decision could have profound effect on the whole, far-flung desegregation struggle.

The high tribunal in 1954 had outlawed school segregation, and in 1955 ordered it wiped out with "all deliberate speed." Now the big question was: "What is deliberate speed?"

The Little Rock School Board, through its attorneys, fought hard for the 2½-year delay granted by a U. S. District Court judge. The NAACP hotly opposed any delay—crying it would be a retreat before the kind of violence that led President Eisenhower to dispatch federal troops to Little Rock last year.

WASHINGTON (AP)—The government today urged the Supreme Court to permit no delay in integration in Little Rock schools.

In a brief filed with the court 2½ hours before an extraordinary special session called for a Little Rock showdown, the government asked that all present legal barriers to immediate integration be struck down.

The Justice Department thus supported a petition by counsel for the National Assn. for the Advancement of Colored People. The NAACP has asked the court to remove two legal barriers to immediate resumption of integration in Little Rock's Central High School.

There was no immediate explanation of how the Justice Department brief squares with Wednesday's disclosure by President Eisenhower that he favors a slower approach to integration efforts.

In the news conference at which Eisenhower made that view known, he also said he did not expect the Justice Department argument in the case to vary greatly from his own previously stated views.

A bell summoned the justices to a conference—all nine reportedly were present—at 10 a. m. That was two hours in advance of the formal session in the austere, marble-columned court chamber.

In corridors outside, perhaps 300 persons, about half of them Negroes, lined up in hope of claiming spectator seats.

The two barriers the NAACP wants knocked down are:

The order by the U. S. District Court in Little Rock permitting a 2½-year delay in integration; and a ruling by the Circuit Court of Appeals in St. Louis staying its order which would void the 2½-year delay. The stay by the Circuit Court was granted pending a decision by the Supreme Court.

The government's brief, filed by Solicitor General J. Lee Rankin, said the original decision of the Circuit Court knocking out the 2½-year delay was clearly correct.

The government brief, filed in response to an invitation from the Supreme Court for the Justice Department to take part in the case, said the high court has full power to grant the relief asked by the NAACP. It said further that such relief should be granted.

Stressing that the only purpose of the stay granted by the Court of Appeals was to give the high court an opportunity (Turn to Page Fourteen)

LITTLE ROCK IN BRIEF

WASHINGTON (AP)—Today's Supreme Court session in brief:

PARTICIPANTS—The Little Rock, Ark., School Board versus the National Assn. for the Advancement of Colored People, representing seven Negro children seeking admission to Central High School. U. S. Solicitor General J. Lee Rankin presents arguments on behalf of the Justice Department.

ISSUE—Whether integration shall proceed at Central High for the session opening Sept. 8 or whether a delay shall be permitted.

BACKGROUND—Federal Dist. Judge Harry J. Lemley of Hope, Ark., ruled June 21 that integration at Central High could be delayed 2½ years. The 8th Circuit Court overruled Lemley's ruling Aug. 18. Three days later the Circuit Court granted a request of the Little Rock School Board for a 30-day postponement of its order.

The NAACP asked the Supreme Court to squelch the stay so that Central High could open on an integrated basis Sept. 8. Chief Justice Earl Warren on Monday called the special session to consider the request.

JUSTICE DEPARTMENT—Urges Supreme Court to permit no delay in integrating Little Rock Central High School. Says Negro children who entered the school did nothing to incite violence, but that others resorted to acts which caused School Board to deprive Negroes of constitutional rights to unsegregated schooling.

With the Candidates

LAWRENCE
CENTRE HALL, Pa. (AP) — "There is probably no more important challenge facing America today than the adequacy of its educational system," Mayor David L. Lawrence of Pittsburgh says.

Lawrence, Democratic candidate for governor, promised, if elected, he would press for establishment of a federal scholarship program and do everything necessary to get more federal aid to augment the state's educational system.

Pennsylvania has made solid educational progress under the administration of Gov. Leader," Lawrence told a Democratic rally at this Centre County community Wednesday night.

He said the state has stepped up its school building program and revised curricula and instruction. "In short, Gov. Leader has made dramatic and vigorous progress toward developing an educational program in Pennsylvania capable of preparing today's students for the challenges of tomorrow," Lawrence declared. Leader is the Democratic candidate for the U.S. Senate.

MAKES APPOINTMENT
HARRISBURG (AP) — George I. Bloom, Republican state chairman, today appointed Joseph J. Machulsky of Shemandoah as state director of Republican labor activities.

Machulsky, 44, a former Schuylkill County coal miner, held a similar post with the state committee for the 1958 campaign.

"Mr. Machulsky spent more than 20 years as a miner and union member which gives him the background to carry the Republican message to those in organized labor," Bloom said.

REPUBLICAN
HARRISBURG (AP) — W. Stuart Helm, GOP House speaker, said today Republicans "are looking off the strongest, most unified legislative campaign effort this state has ever seen."

Helm spoke at a strategy meeting for party legislative candidates. All of the party's candidates for the state lawmaking body were invited. Stating that nothing short of an all-out campaign geared for total victory would be acceptable, Helm explained: "We mean victory for our dynamic state ticket, victory for each of us and victory for the principles and goals of our party in Pennsylvania."

"When we talk of victory, we mean returning decency and honesty to state government."

Helm also said that victory for the Republicans would turn back what he called the machine gangs "before they get their greedy hands on the instruments of state government."

Referring to Gov. Leader, Democratic candidate for the U.S. Senate, and Pittsburgh Mayor David L. Lawrence, candidate for governor, Helm said:

"It is one of our primary duties to see that the people of Pennsylvania turn out on Nov. 4 to keep the lightweight Mr. Leader out of the U.S. Senate, and to keep the old city boss out of the governor's chair."

SCOTT
HARRISBURG (AP) — Rep. Hugh Scott, GOP candidate for the U.S. Senate, has blamed Democratic leaders for the defeat of a bill that would have given Pennsylvania additional federal judges.

"Pennsylvania would have gotten five more judges if that bill had passed," Scott said Wednesday in a letter to Rep. Kenneth Keating (R-N.Y.).

"But in spite of our efforts, the Democrat leaders crushed the bill in the last days of Congress," Scott said.

DEMOCRATIC WOMEN
HARRISBURG (AP) — Women leaders of the Democratic party will tour Pittsburgh Sept. 2 as guests of Mayor David L. Lawrence and Genevieve Blatt, secretary of internal affairs.

Miss Blatt, candidate for reelection, said "There isn't a woman in Pennsylvania who has wielded a dust cloth or operated a washing machine who can't appreciate what Mayor Lawrence has done for Pittsburgh housewives."

News of Hollywood

By BOB THOMAS

AP Motion Picture Writer HOLLYWOOD (AP)—Entertainment is booming in the show business capital of the world. Never can I remember so much prime entertainment of all kinds in the Hollywood area. And the public is buying. If this prosperity can be continued and spread throughout the nation, show biz need have no worries.

The Hollywood Bowl is finishing a record season that has offered everything to all audiences, long-hairs and crewcuts. The Greek Theater, once a civic white elephant, has been booming this season. Maurice Chevalier, Danny Kaye, Jose Greco, Cyril Ritchard, the ballet and now Jerry Lewis have proved to be surefire attractions. That fabulous invalid, the theater, is booming. Eve Arden breezed into town as "Auntie

Mame" and she'll have one of the longest runs in recent times at the Biltmore.

Half a block away at the Philharmonic Auditorium, "The Music Man" is displaying his brass wares nightly in packed houses. Disneyland, Pacific Ocean Park and Marineland are doing great. And don't leave the movie business out of the picture. Hollywood is bringing up its biggest guns to aim for the late-summer trade.

Last weekend, Gregory Peck tossed a party to celebrate his "Big Country" premiere and it looked as if the old days had returned to Hollywood. The picture was worth it. A Western in the truly epic tradition, it is movie making at its best.

There are others too. "Cat on a Hot Tin Roof," a fine, taut drama with superb acting; "Reluctant Debutante," all fluff and delightful; "The Defiant Ones," a return to tight, meaningful storytelling; "White Wilderness," a Disney delight; "The Hunters," a jet film, etc.

On that optimistic note, I'll take off for a fortnight to rest up for the opening of the fall show biz season.

TODAY is pay day for all who have classified ads.

Strange Rocket From Outer Space Boy's Brain Child

POCATELLO, Idaho (AP)—You can come out now, earth people. That rocket from outer space came from a teen-ager's basement.

The thing turned up on Ruel H. Barrus' lawn last weekend—still smoking. It was a rocket-shaped aluminum cylinder 10 inches long and 3 across. Its crumpled nose was buried deep in the dirt, and its burned outer shell suggested the kind of heat a rocket might encounter on hitting the earth's atmosphere.

The find caused a stir in this east Idaho community, where flying saucer reports have turned up lately. The press played it big. It was the publicity that flushed the worried engineers of the prank. Roy Bennett, 14, and Paul Napper, 15, decided to go to the cops before the cops came to them.

In a statement written out Monday before police let them go,

the boys explained: "This . . . was primarily a psychological experiment, to see what would happen if the reported flying saucers had actually fired a reconnaissance missile."

Paul and Roy, who dabble in amateur rocketry, chemistry and radio, said soberly they tried to make the device look as if it was propelled by an ion motor — "something which has not been developed on earth yet."

They burned the shell with acid and acetylene torch, to give it that air-fired look. They put a spring and glass vial inside, crumpled the nose, spooned in some yellow phosphorus to make it smoke, then dug a hole and planted it.

"All in all, the experiment was a success," they said. "The Police Department analyzed the remains quite thoroughly and had the construction of the rocket partially right."

DRAKE ANNIVERSARY

The Titusville Herald reminds that Wednesday was the 99th anniversary of the discovery by Col. Edwin L. Drake that oil could be extracted from the earth in quantities by drilling.

It is interesting to note that both the World Almanac and a calendar distributed yearly by one of Warren's leading and oldest retail establishments lists the historic event as having been chronicled on August 28, 1959. The Herald down through the years has been recognized as authority on the subject, and in keeping with their records the event will be observed with a colorful Oil Centennial next August 27th, on the 100th anniversary of the first oil well and to the man who had the ingenuity, faith and wisdom to develop an idea, which revolutionized the world more than any other discovery.

It is interesting to note that the Warren area is well and capably represented on the committee in charge of arrangements.

SIGHT SAVING MONTH

The month of September has been designated by Governor George M. Leader as Sight Saving Month for the Commonwealth, in cooperation with the program of the National Society for the Prevention of Blindness.

"The gift of sight is one of our greatest treasures and is constantly threatened by disease, injury or neglect," the Governor says. "It is the personal responsibility of each of us to protect our sight and the vision of the members of our families from harm.

"The National Society for the Prevention of Blindness has set aside the month of September as Sight Saving Month to emphasize the importance of proper eye care. The opening day of this campaign has been designated as Helen Keller Day, as a tribute to the accomplishments of this great woman, an honorary Vice President of the Society."

TODAY'S NEWS

WASHINGTON (AP) — That President Eisenhower has finally said he thinks public school integration should go slower is no surprise to anyone who has carefully examined his news conference statements over the past 2½ years.

His whole theme — although he never flatly said so until Wednesday — has been that this is a slow process. He's talked of patience, of educating people on the issues, and said laws can't change the hearts or prejudices of people.

But what came as a surprise was the time he chose to say publicly that he thinks the Supreme Court's order to end public school segregation should be carried out at an even slower pace than it is going.

Only eight days ago — when the Little Rock school integration case was still in the hands of a lower court — Eisenhower said he did not want to comment on a case pending in the courts.

But his statement Wednesday about slower integration came one day before the Supreme Court was to hear arguments on whether integration at Little Rock's Central High School should be resumed or delayed.

A reporter quoted Newsweek magazine as saying Eisenhower had told friends he thought integration should slow down. Asked if that was correct, the President said he might have told someone that.

However, Eisenhower denied another part of the magazine story that quoted him as saying privately he wishes the high court had never handed down its 1954 decision declaring public school integration unconstitutional.

Never throughout news conferences — going back to February 1955 — has he given any sign that he had any clear plan for enforcing the Supreme Court's order.

He's repeatedly mentioned talking to educators, clergymen and occasional governors he met about the need to get people to understand the problem of integration and obeying the Supreme Court.

He's refused repeatedly to say whether he thinks the court's order was good or right.

All he's ever really said about his intentions was that he had taken an oath to enforce the laws.

Here and There

Fifty years ago today the Warren Evening Times carried a story on the first page outlining what turned out to be one of the greatest Labor Day celebrations the town has ever experienced. Said the article, "Enthusiasm is growing in every quarter of the city over the great celebration to be held in Warren Labor Day, Monday, September 7th. The merchants and people of Warren at large realize that upon this day thousands of visitors will pour into the city and enjoy Warren's noted hospitality, and to that end have encouraged the Union men to make the celebration a record breaker. To that end the merchants have liberally met the appeal of the Central Labor Union for funds, and the sum total of the solicitation, including what has been given by the various unions and merchants, reaches almost \$2,000. The money is being wisely expended, and the union men are contributing of their time and labor, so that it may be said in all about \$2,500 worth of fun will be enjoyed on Labor Day. The only town in the section that will have even a small celebration will be Bradford, where the people will celebrate in a small way, but will not attempt a blow out on such a scale as Warren has prepared. Titusville, Corry, Oil City, Franklin, Jamestown and other towns will accordingly send delegations to Warren to enjoy the day, and thousands of strangers will be in town. Excursion rates have been granted for the day, and a "dollar excursion" from Oil City has been arranged. Kane has already signified intention to outdo other towns and will send a band to head its delegation, and one of the hose companies from the Mountain City will be down to take part in the parade. The parade is expected to be one of the finest ever seen in Warren, the committee having extended invitations to every store and factory in the city to have a display in the line. Many merchants are already arranging to have floats, and civic organizations have asked concerning a place in line. Music galore will be on hand. Of course the American Federation of Musicians Band of Warren will occupy a front place. The program for the day will be very interesting. The larger details have all been arranged and contracted for but there are several minor features that have not as yet reached a culminating point. Samuel Prince, of New York, will be the principal speaker. J. W. Smith, the fraternal delegate to the Central Labor Union of this city, will also give a short talk, as will Mayor E. H. Beshin. A vaudeville show will also be a feature of the day. A large stage will be erected on the river bank opposite the Citizens National Bank and upon this a program of acrobatics and gymnastic stunts will be given as well as a juvenile minstrel show that promises to be a hummer. Two balloon ascensions will also be made during the day. Races and sports of various kinds will be staged. A Rube Fire Company with its comical attire and apparatus and prize

market this morning was one of the most prosperous appearing in several weeks. Fall fruits and vegetables were offered in abundance and some very tempting displays were presented."

Radio and TV

By CHARLES MERCEUR

NEW YORK (AP)—Jackie Gleason is returning to weekly television after a year's absence. He will have a half-hour all comedy variety program.

The show starts Oct. 3 (8:30 p.m. EST) over CBS-TV. It is similar to the one he had two years ago, the Gleason gallery of characters (the Poor Soul, Reggie Van Gleason, etc.) abetted by Buddy Hackett; girls (six in number rather than the more numerous June Taylor dances), music by the Jackie Gleason Orchestra conducted by Ray Block. He will have no featured singer, and guests will be rare.

It should be good news to millions of viewers. If the nation's 500 TV critics don't bother to tune in, Gleason couldn't care less. For those currently enjoying Gleason in "The Honeymooners," the number one TV filmed rerun in the country, it may be confusing to hear he's been away from live television for a year.

He's been writing, conducting and recording music. He's been thinking, reading and seldom turning on a TV set. He plays 54 holes of golf daily (shoots about 79) and in the process has lost 30 pounds. He looks as if he'd be more at home at the Explorer's Club than at Toots Shor's drinking and eating establishment.

While Gleason feels that he has read some valid criticism about himself, he believes TV critics generally perform a very minor service to the folks at home.

He takes a dim view of the cliché about the danger of overexposure on television. "Familiarity might breed contempt," he says, "but you can't contain contempt if you're laughing."

As an actor, Gleason has turned down movie offers which were based on the appeal of Gleason as a comedian. "When you give yourself away on television, you have to do something different to get them to pay to see you." As a comedian, he feels that his greatest strength is in being able to play a variety of comic roles while most comedians play only themselves.

Business Mirror

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — The first task facing the new and younger team heading General Motors will be to handle the threat of an auto strike.

To the public this is far more important than any internal corporate changes that may follow the retirement of President Harlow H. Curtice and Chairman Alver Bradley.

That's because the effects of an auto strike would spread far beyond the auto industry, itself so vital to the American economy. A shutdown could, at least temporarily, knock the pins from under the general industrial recovery before it really gets started.

How incoming Chairman Frederic G. Donner and incoming President John E. Gordon deal with the United Auto Workers president, Walter Reuther, will be of prime importance to the industry of which GM is roughly half.

An auto strike is what business in general fears more than anything just now.

Example. Much of the new optimism in the steel industry is traced to expectations that the auto industry, its biggest customer, will be ordering heavily from now on. Steel counts on auto makers to be pushing output of the new models on which Detroit pins its hopes of recovering lost sales ground.

Many other industries—rubber, copper, glass, lead, zinc, radio set makers—and a host of auto industry suppliers would be hit badly by an auto strike.

A lengthy shutdown could quickly clear out the showrooms of the car dealers. It might for a time face motorists with a shortage of new cars instead of a surplus.

All hands have cause to hope there'll be no strike.

But the public has another reason to watch how the Donner-Gordon team handles the union negotiations.

The auto industry shares with the steel industry the popular conviction that their wage settlement set the pace. What Reuther gets short of a strike, or after one, may affect negotiations in other industries. It may affect the general price pattern, too.

And that, in this time of fear of further inflation, is of prime interest, not only to industry but to consumers.

Boyle's Comment

By HAL BOYLE

NEW YORK (AP) — The John Foster Dulles of the bowling world is Billy Welt, a 6-foot-4 Texan, who at 26 is one of the top figures in the nation's fastest growing sport.

"I traveled 150,000 miles last year," drawled Welt, a cheerful 225 pounder.

The emergence of Welt is symbolic of what has been happening to the ancient sport of terpsis. A tremendous postwar boom has brought bowling out of the alley shadows and the side streets into a new prestige. It now has a U.S. following of 20 million — the players range from factory workers to socialites — and is adding a million fans a year.

The fresh glamor surrounding the sport has resulted in the rise of a new class — the bowling pro. He ranks in every respect with the baseball, golf or tennis pro.

"Ten years ago there were only a few men in the entire country who earned a living by bowling," said Billy.

"Now bowling has a good future as a profession."

"A top bowler today can earn from \$20,000 to \$30,000 or more. Some even have earned \$50,000 or better."

Welt competes in some 80 tournaments a year. He also tours the nation supervising bowling clinics.

Billy, a graduate psychologist who also has studied business administration, has bowled 13 perfect games of 300. He set an all-time four year average of 214 in ABC competition, and consistently has been among the nation's top 10 bowlers.

Billy started at the bottom. He

The earliest third party in the United States was the anti-masonic party. The party offered a candidate for president in 1832. Since then, many third parties, local and national, have appeared. Among them the Know-Nothings, the Greenbacks and the Progressive party were prominent.

A Touch of Work Sometimes Teaches Value of College

Jimmy, who will be a high school senior this fall, got a summer job with a construction company. He was working with married men who supported families on the same hourly wages Jimmy had to spend on dates and his souped-up hot rod.

He listened to the men worry out loud about the difficulty of getting by from one pay day to the next. He saw them stuck in poor paying work that in not too many years would be beyond their strength. He realized that these grown men had nothing more to bargain with in the business of earning a living than a 16 or 17-year-old kid. As a result, Jimmy got a respect for education his parents and teachers had never been able to give him.

I'm telling Jimmy's story because I have before me a letter from a mother who says that she and her husband can't persuade their son that he ought to go on to college this fall.

They are wondering if they ought to force him to go or give up their dream of seeing that he has the opportunity for a better education than either of them were able to get.

Maybe the answer is to let the boy get a job and find out a few of the financial facts of life for himself.

It's a gamble, of course. But it isn't any more of a gamble than sending him to college against his will.

It is hard for parents to tell an 18-year-old anything. But it is amazing how much they can learn from observation and experience when they get in a situation where they are on their own.

Leofsky, son of Mr. and Mrs. W. C. Leofsky, Gailand.

Choosing floor length silk organza over faille taffeta, the bride was given in marriage by her father. Her gown was styled with princess lines, sabina neckline, long sleeves tapering over the hands, and a full skirt detailed with back-bow and trapeze streamers. Her veil

of imported illusion had hand-rolled edges and fell from a crown of iridescent sequins and seed pearls. Completing her outfit, she carried a white pearl prayerbook, gift of the bridegroom, to which was attached a cascade of Eucharist lilies and yellow floribunda roses and ivy; also a white lace hanky, her mother's gift.

Wearing ballerina length faille taffeta, the maid of honor was Pearl Markiewicz, in misty green; bridesmaids were Evelyn Ratkowski and Mary Slupski, in yellow. Their princess gowns had portrait necklines, cap sleeves, and butterfly back-bows with streamer-panel to the hemlines. Each had a crown of braided tulle entwined with seed pearls to hold her circular veil, and carried a trapeze-design bouquet of roses in ombre tones of yellow and ivy sprays.

Completing the bridal party, Paul Leofsky was best man; Raymond Leofsky and Joseph Andruska, ushers; Ronald Leofsky, ring bearer.

Additional Details Worked Out for Fall Flower Show on September 5th

One of the attractions of last year's Flower Show at the Woman's Club was a Vase Sale, proceeds from which were used to help defray expenses of the show, which is open to the public without charge.

So successful was this event, it was decided by the committee it should be repeated this fall and anyone who has an unused vase to contribute is asked to bring it to the club-house.

Mrs. Treat Davidson, chairman for this sale, is hopeful of having many unusual and practical containers at her booth when the 1953 show, co-sponsored with Warren Garden Club is held on Friday, September 5.

The staging committee, under the direction of Mrs. Melvin G. Keller, is planning to transform one end of the auditorium into a beautiful woodland scene, with real trees and a water lily pond. This display is being done through the cooperation of the Karnak Tree and Shrub Service and Albaugh's Landscape Tree Service.

The committee reminds the public all vases for horticultural exhibits will be furnished by the sponsors, all containers for arrangements classes should be clearly marked on the bottom with the owner's name.

Another of the show's highlights promises to be the exhibition of miniature arrangements. These cannot exceed six inches in size in any direction. Enthusiasts of this hobby are always on the lookout for tiny containers to keep everything

CANCER SOCIETY

Warren County Unit, American Cancer Society, will have an executive committee meeting at headquarters in the Warren Service Center, 404 Market street, at 7:00 p. m. Tuesday, September 2. TESTS TONIGHT

Tonight will be the last time for Red Cross swimming classes at Chapman Dam, director Paul Steinkamp reported today. Beginner's tests will be given participants, this being their last chance of the season to take and pass these. Successful passers will be given a Red Cross certificate and button indicating they are beginner swimmers and have passed their test. There will also be regular swimming tonight.

STRUCK GRANITE AT 8,031

The deep test well in western Crawford County, put down by the Benedum-Trees Oil Co. of Pittsburgh, came to a surprising dry-hole end last week. Granite was struck at a depth of 8,031 feet in Summerhill Township. The granite is regarded as the geological bottom with no possible oil or gas below it. Elsewhere in the state, granite is sometimes as deep as 16,000 feet. In Warren County, the Shaw Farm test well went to 9,410 feet last year and found no granite. The Summerhill Township well has been abandoned and plugged.

ENGINEERING COURSES

The opportunity for area engineers to work toward a Master of Science or Master of Engineering degree has become a reality as a result of the graduate study program being started at The Pennsylvania State University, Behrend Campus, Erie in early September. Such a program has come about due to Penn State's awareness of the importance for increased technological education to keep pace with changing production methods and through the need and interest of area engineering personnel expressed at an organizational meeting held recently at Behrend Campus. Class registration will be held September 3, 1958 in Room 204, Turnbull Hall, Behrend Campus at 7:30 p. m. Classes will begin in the same room on Monday, September 8, 1958 at 7:30 p. m. and will meet once a week two hours per night for twenty weeks. Further information concerning the program can be obtained by contacting William E. Mosso, District Representative, Behrend Campus, Erie, 8-3101.

MISDIRECTION SCORES GAME

North's raise to two no-trump was a rock-bottom minimum and with only 16 points South probably should have passed, but he looked at his three ten spots and decided that they constituted sufficient additional values to warrant a game bid.

Incidentally, I rather agree with South. The habit of playing hands at two no-trump is a bad one. With luck you make three; with bad luck you may not be able to make your two.

When the dummy came down, South wished he had stopped short of game. He could count eight sure tricks and needed a spade trick for his ninth. Meanwhile, East and West might be able to find their heart suit. South decided that his best bet would be a little misdirection, so he won the first diamond in dummy and led the three of hearts. East played low, South played the ten and West took his queen.

It was too much for West to visualize the heart situation. He decided to try spades instead. A low spade was won by East's king and South false-carded with the ten spot. Back came the six of spades and again South false-carded with the jack. West took his ace and led a third spade, whereupon South was able to gather in the rest of the tricks.

4,500 New Students at PSU; Enrollment Grows

Nearly 4,500 new students will arrive at Pennsylvania State University Sunday, Sept. 7 to begin a week of orientation that includes registration for the fall semester starting Sept. 15.

At the same time, about 2,300 high school graduates will report to the campuses and centers of the University located throughout the State to begin either the two-year program that leads to the associate degree or the four-year program which includes the last two years at University Park and leads to a bachelor's degree.

The new students scheduled to report at University Park include more than 3,300 freshmen; more than 525 students transferring to the main cam-

pus from other campuses of the University; and about 600 students transferring from other colleges and universities.

Officials at the University are anticipating an enrollment slightly higher than a year ago when 19,265 students were registered. This included 14,131 students at Penn State and 5,134 enrolled throughout the State at other campuses or centers and at Mont Alto where forestry students complete their first year.

The globefish inflates its body by swallowing air and, floating belly upward, blows across the water before the breeze, according to the Encyclopedia Britannica.

About two-thirds of the nation's wage and salary working force were covered by group life insurance protection at the beginning of 1958.

Facts You Probably Don't Know About Common Fly

By JOHN BARBOUR
Associated Press Science Writer

BLOOMINGTON, Ind. (AP) — The house fly, bred in flight, has the peculiar ability to shed the disease-causing germs it lived with at birth, a University of Illinois researcher said today.

For this reason, the importance of disease-carrying flies born in refuse and other dangerous bacteria havens is probably slight, the researchers reported.

Dr. Bernard Greenberg, Illinois zoologist, traced the numbers of bacteria present in the house fly at various stages of its growth.

His report was presented at the American Institute of Biological Sciences meeting at Indiana University.

Flies lay eggs in such places as

garbage, manure and sewage. The maggots which soon hatch carry tens of millions of bacteria in their systems, Dr. Greenberg said.

But by the time the larva has formed its hard outer case, it has rid itself of about 90 per cent of this bacterial load.

When the fly finally emerges, it carried with it about 1,000 bacteria—five hundred on its surface and a similar number internally.

While the fly undoubtedly spreads some of these bacteria, it is not as serious a carrier as was earlier believed, Dr. Greenberg said.

The United States imported 2,900 long tons of pig tin in January of 1958, 1,265 long tons being from Malaya.

FIRST OPERATION

First official operation of the American Red Cross was a disaster—Michigan's forest fires of 1881. Dr. Julian Hubbell was

sent by Miss Clara Barton to look into the situation and food, clothing and medical supplies were furnished the victims.

Losers Protest Selection of 1958 Oil Queen At Johnsonburg

Titusville Herald: Miss Mary Louise Hull, 17, was chosen Oil Queen of 1958 at the annual VFW Oil Festival event last night at Carter Field before a crowd estimated at between 750 and 1,000.

She was the unanimous choice of the judges, but before the night was over other contestants said they planned to file a protest with the Bruce Shorts Post of the VFW. The others claimed Miss Hull may not have been eligible because of her age.

A spokesman for the other contestants said they were unable to locate Robert Radmore, chairman of the VFW oil queen committee, to enter a protest. However, several of the contestants said that unless the VFW contest rules and eligibility requirements were cleared up they would take no further part of Oil Festival events.

Contacted later by The Herald, Mr. Radmore asserted that eligibility requirements had been met by all the contestants, and that there was no question about Miss Hull being the queen. Contest rules are that girls must be 17.

Miss Hull, a pretty, brown-haired girl, will be a junior at the Titusville High School this year. An employee of the G. C. Murphy Co., she is taking the college preparatory course as she plans to go into nursing.

Runners-up in the contest were Miss Beverly Nelson of 412 N. Drake St. and Miss Wil-

A young chemical engineer was killed in spectacular crash on Route 219 near Johnsonburg last night. The sports car he was driving, literally disintegrated in a series of roll overs.

Dead is Bruce Allen Bartholomew, 21, a Syracuse, N. Y. native recently living in Ridgway.

Injured was his companion, also a chemical engineer, James Craner, 21, also a Syracuse native now living in Ridgway.

State Police said Bartholomew was pronounced dead on arrival at Elk County General Hospital, Ridgway.

Craner is in critical condition in the same hospital. He suffered two fractured legs, a skull fracture, and lacerations of the face, head and arms.

The 1957 model sports car, purchased by Bartholomew two weeks ago, struck a pole, rolled over through a driveway and some distance up a hill at the side of the road.

The motor was hurled a considerable distance from the demolished car.

Bartholomew was a June graduate of Pennsylvania State University. Crane is a 1958 graduate of Syracuse University.

Both were employed as chemical engineers by the New York and Pennsylvania Co. at Ridgway.

The men were en route to Johnsonburg from Ridgway at the time of the crash. State police were investigating the accident.

The other contestants were Mrs. Mona L. Vosburg, Mrs. Mary Sullivan, Miss Shirley Grove, Miss Ann Mack and Miss Kay Figerell.

The judges, William Forsythe, personnel director of the Sylvania Electric Products Inc. plant here, Edward Erickson of Oil City, manager of radio station WKRZ, and his wife, based their decisions on beauty, figure, poise and personality. The girls were reviewed in a group, and then they made separate entrances. They were dressed in evening gowns of various shades, including pastels, red and in white.

Rain Delays Qualifiers In Labor Day Classic

DARLINGTON, S. C. (AP) — Rain-delayed qualifying runs got under way again here today as drivers sought nine starting positions in the Southern 500 Labor Day race.

The No. 1 starting position in Monday's stock car classic went automatically Wednesday to Eddie Pagan, the only driver to make the four-lap qualifying test around the mile and three-eighths oval.

Pagan, of Lynwood, Calif., and Charlotte, N. C., averaged 116.952 m. p. h. in a Ford.

Six states do not specify a definite speed limit for automobiles. These six states say "reasonable". That should lead to some long arguments between traffic cops and motorists.

from Wold-Chamberlain Field where the plane had taken off about 3:40 a.m. on a flight to Portland, Ore., and Seattle-Tacoma, Wash.

The flight originated in Washington, D.C., and stopped at Pittsburgh, Cleveland, Detroit and Milwaukee before arriving here.

The plane caught fire just after leaving the runway, pancaked and lost a wing about a mile from the end of the field.

Passenger unstrapped their seat belts and moved to the hole caused when the wing tore off. Some stopped to take their luggage.

A vacation-bound New York State doctor tended the injuries of fellow passengers.

Dr. Roger W. Blaisdell, 52, of Wellsville, N.Y., was en route to Alaska on a four-week big-game hunting expedition.

PITTSBURGH (AP)—A North-western Airlines official said at least three Pennsylvanians were aboard an airplane that burst into flames and burned today after taking off in Minneapolis. No one was killed.

In all 56 passengers were aboard the plane. At least 50 required hospital treatment and one was listed as critically hurt.

let it handle the assignment of any Negro children seeking admission to white schools.

"The Pupil Placement Board is ready and willing to place and assign pupils to the public schools in your school district if you will make available to it the necessary information upon which it can act," the board said in identical telegrams. "It is now and has been ready to discharge its duties pursuant to the law of Virginia."

Both Norfolk and Charlottesville are under federal court orders to desegregate schools next month. Both tried to find a way out of the conflict between the federal order and state law against integration by establishing local assignments plans.

The Norfolk board will report Friday to Federal Dist. Judge Walter E. Hoffman on its reconsideration of the applications of 151 Negroes to white schools. The board last week refused the applications. In a hearing Hoffman told the board the applications must be reviewed.

BACK IN PRODUCTION

PITTSBURGH (AP)—The 35 coke ovens of the No. 2 battery at the Pittsburgh Coke & Chemical Co.'s Neville Island plant are back in full production today.

The reconstructed battery, which resumed operations Wednesday, is capable of yielding some 255,000 tons of coke a year.

Justice Dep't

to consider the ruling, the government urged that the whole Little Rock litigation be decided in one bundle.

The government brief said there was no likelihood that an appeal by the Little Rock School Board from the Court of Appeals basic ruling would be successful. It said the Supreme Court could decide this issue along with the petition to strike down the legal stays.

But if the court should not decide to consider the Little Rock case on its full legal merits, the government asked the court to require the board to file its appeal immediately instead of waiting for 30 days as allowed by the Court of Appeals.

The government's argument went before the high court in an extraordinary setting—one of its rare special terms called to pass on issues of transcendent importance or pressing immediacy.

The time pressure stems from the fact that the Little Rock high school, where Negro students attended last year under guard of federal troops, opens Sept. 8.

Technically Rankin's no-delay brief, filed a few hours before the court opening, was addressed to the specific situation at Little Rock. But it contained a general do-it-now argument which could apply in any situation where public opposition to desegregation is the basis for efforts to hold off immediate mingling of the races in classrooms.

Here is the nub of that argument as set forth by Rankin: The Supreme Court itself in its 1955 order for integration with "all deliberate speed" specified that the constitutional rights of some citizens may not be suspended or ignored because of the antagonistic acts of others.

The most common argument of forces seeking to head off or delay of school integration in southern communities in that the state of public opinion would not permit peaceful race mingling at this time.

There was no indication when the Supreme Court will act, but presumably it will be soon.

Just a year ago, Central High was the scene of anti-integration riots. Federal troops were used to enforce court-ordered integration. Now, a cloud of crisis again hangs over Little Rock.

This is the first case the Supreme Court has accepted that gives it the opportunity to clarify what it meant when, in May 1955, it ordered desegregation of schools "with all deliberate speed."

Technically what is before the court now is a double-barreled petition filed by the NAACP.

It asks the Supreme Court to set aside an order of U. S.

Legislature

ing at the same time in Washington to consider the Little Rock integration case.

Final passage of the Faubus plan was a certainty even before the Legislature's members gathered Tuesday.

Only one voice rose to protest parts of the key school-closing bill Wednesday. And the dissenter, Rep. Ray S. Smith Jr., 32, a Hot Springs attorney, said he favored the bill's objectives but did not want to give some future governor the sweeping power in the measure.

This keynote bill called for closing any public school threatened with integration either by physical power or court orders.

Most other bills in the Faubus package aimed at supporting this measure.

The effect would be to close a public school facing forcible integration and leave it to an individual or group for operation as a private school.

The Legislature also stamped approval of a series of bills by Arkansas Atty. Gen. Bruce Bennett, most of which aimed at curbing activities of the National Assn. for the Advancement of Colored People.

The Faubus legal package actually would permit a student displaced by a closing to attend any school of his choice, including church schools.

The practical effect, should Central High School in Little Rock be closed by the governor, would be that the students would have no other place to go. All public and private schools in the county are overflowing. This would leave the governor no choice except to leave Central High to a group or individual as a private school. The state would pay tuition to meet the school's expenses.

President Eisenhower told a news conference the shutting down of schools "would be a very terrible outcome" to the integration situation. He predicted it would supply "a whole basketful of litigation."

Eisenhower went on record as believing the mingling of Negroes and whites in schools should go along more slowly, to give "reason and sense and education" time to win acceptance of the integration process.

Faubus and Gov. Earl K. Long of Louisiana applauded the presidential remarks. Gov. Averell Harriman of New York was critical of Eisenhower.

Roy Wilkins, executive secretary of the National Assn. for the Advancement of Colored People, hopped on the statement. He said it was incredible Eisenhower should have concluded 4½ years after the Supreme Court decision outlawing segregation that the pace should be slower.

begin with a spurt of robberies in spring of 1957, continued when things cooled off last November and December, then kept on in a hit and miss fashion with the latest burglary occurring August 11th.

It was the largest number of burglaries ever to occur in the county, second only to the 41 break-ins chalked up by Robshaw and Allen, who both were sent to the penitentiary.

The VanGuilder brothers are destined for a court appearance in Quarter Session pleas court in September. Reminiscing with Warden Don Allen, Sr., the elder VanGuilder, Robert, said it was just 25 years earlier when he had been in the same Warren County Jail cell for burglary and larceny.

The pair spent Tuesday and Wednesday with law officers touring the southern part of the county identifying camps broken into. Some of the loot has been recovered in Jamestown second hand stores and the brothers told of other persons they had sold some to.

Giants Finally Squelch Hex Held Over Them by Braves

By ED WILKS
Associated Press Sports Writer

The San Francisco Giants finally have squashed Milwaukee's hex, hitting the law of averages for a double jackpot behind the hitless relief pitching of Al Worthington.

The Giants had lost eight in a row to the Braves and Worthington had beaten them only twice in 15 decisions before the big righthander backed up his almost perfect three-inning job on the mound with a 12th-inning single that led to a 3-2 victory Wednesday night.

That clipped the Braves' National League lead to seven games over the Pittsburgh Pirates, who

rapped 18 hits and beat St. Louis 14-1. Cincinnati defeated Los Angeles 8-7 and the Chicago Cubs beat Philadelphia 5-2 with Ernie Banks pushing his major league-leading home run total to 42.

Dick Stuart, Bob Skinner and Bob Porterfield homered in the Pirates' 6th victory — their best total since winning 7-1 in 1949. Porterfield was forced off the mound by a knee injury in the fourth inning — leaving the victory to reliever Vern Law (10-11), who pitched one-hit, shutout ball.

Skinner and Thomas, who doubled with the bases loaded in a five-run sixth, each drove in three runs for the Bucs. Rookie Nels Chitum (0-1) lost it.

Coach of Packers Has a Variety of Fine Quarterbacks

By CHUCK CAPALDO

Associated Press Sports Writer

GREEN BAY, Wis. (AP) — Coach Ray McLean of the Green Bay Packers can choose between a home run hitter and a singles hitter for his quarterback this National Football League season. For the long, or home run passes, he has Vito "Babe" Parrilli. For the short, hit-'em-where-they-are type of pass, he can call on Bart Starr.

Parrilli, 29, and Starr, 24, divided the quarterback position last season with fair, if not consistent, results.

This year, McLean's first as a head coach, each is expected to mirror results of incessant practice in his specialty.

Porterfield and Law Team Up To Handcuff Cards

ST. LOUIS (AP)—Remember American League castoff Bob Porterfield who came to the Pittsburgh Pirates early this season?

And Vernon Law who has been with the club several years?

These two right-handed pitchers teamed up Wednesday night to handcuff the St. Louis Cardinals on six hits for a 14-1 victory behind an 18-hit attack that included three home runs.

The victory moved the second-place Pirates to within seven games of Milwaukee, which lost to San Francisco.

Dick Stuart, Bob Skinner and Porterfield belted the home runs. Frank Thomas unloaded a double that drove in three runs to increase his RBI total to 104.

When Porterfield came to the Pirates, Manager Danny Murtaugh used him mostly in relief.

His record wasn't too impressive, either. He won his first game, then dropped five in a row.

Meanwhile, Law, who had been a starter all season, couldn't seem to click over the past month.

The Pirates pitching staff last week suddenly found itself overworked, what with a full road schedule and little rest.

So Murtaugh decided to send Law to the bullpen and give Porterfield a crack at the Chicago Cubs last Saturday.

Porterfield pitched a neat five-

hitter for a 6-1 victory over the Cubs.

Porterfield started again Wednesday night and was coasting smoothly behind a 7-1 lead until the fourth inning when he injured his left knee in making a putout at first base.

And in comes Law to relieve. Law pitched one-hit ball over the last 5 1-3 innings and earned his 10th victory against 11 defeats.

The hit came after he had retired 14 men in a row.

Pirate officials said Porterfield suffered a swollen knee and X-rays proved negative.

The team did not indicate how long the injury will keep him out — if at all—but he made the trip to Milwaukee where the Pirates open a crucial three-game series Friday after an open date today.

Carnegie Tech Plays Four Games at Home

PITTSBURGH (AP)—Carnegie Tech will play four home football games this year—in three different stadiums.

Two games are scheduled for Pitt Stadium, one for Leechburg High School and one for Mt. Lebanon High School.

Tech home games had been played at Forbes Field, home of the Pittsburgh Pirates.

But Forbes Field will not be used for football this year, since the Pittsburgh Steelers of the National Football League—who also had used the Pirates' field—will play their home games at Pitt Stadium.

Hambletonian Track Record Is Shattered

By DAVID C. REEDER

DUQUOIN, Ill. (AP) — A filly who set a record and an old man rubbing a rabbit's foot are part of the 1958 Hambletonian story.

A pre-race favorite, speedy Emily's Pride broke Hoot Mon's 11-year-old Hambletonian record of 2:00 with a third heat time of 1:59 4-5 for the mile trot.

Driven by 64-year-old Flick Nipe and trained by 78-year-old Fred Egan, Emily's Pride turned on a burst of speed at the finish of the decisive heat to edge out Sandalwood by half a length in the race for 3-year-old trotters.

"This is the third Hambletonian I've won with a special rabbit's foot," said Egan, waving his lucky charm. "I guess there must be something to it."

Egan won in 1940 and 1949, both times as a driver.

A second-heat stumble on a sulky wheel placed Emily's Pride in the No. 12 spot for the third trip around the DuQuoin State Fairground track, before a crowd of 22,500.

She won the first heat in 2:00 1-5 after a stretch battle with Mr. Saunders and Sharpshooter, the third of the pre-race favorites that included Emily's Pride and Sandalwood.

The second heat was won in 2:02 by Little Rocky, an outsider

'Pee Wee Reese Has a Good Thing Going in Louisville'

BY HARRY GRAYSON
NEA Sports Editor

LOS ANGELES—(NEA)—Outside, on the monotony that passes for a baseball park, the Dodgers were playing. But Pee Wee Reese, who has been a part of this team for 19 years, sat in street clothes in the dressing room and talked about a storm window business in Louisville.

The Dodgers have tried six different third basemen this season. Next spring they are bringing up two more from the farm. The last man they are thinking about is Reese, who after 19 years doesn't know what he is going to do.

"I hate to be indecisive," he was saying. "This bad back of mine has me out for a while. It's way down at the base of the spine. But I think I'll be fine. I want to play. Except for last year, you know, I played in more than 140 games for this club every season. I think I still can go some more. But what am I going to say? It's not up to me. I don't know what's going to happen."

IT IS STRANGE TO HEAR Reese talk this way. You've heard it before—from every veteran ballplayer on the way out. But it is hard to realize Reese is in the same category. Maybe we're getting old, but Reese still is thought of as the bright youngster who came out of Louisville to put Leo Durocher on the bench and give the Dodgers a shortstop who had a hand in winning seven pennants.

But that was, he reminds you, 19 years ago and now he talks about his future. "I've got that storm window business in Louisville," he was saying, "and I just opened an insurance agency. Maybe it'll be that. I don't know."

"I'd like to stay in baseball in some capacity. I don't want to manage. I know that. I don't think I have the temperament. Buzzy Bavasi had me meet him in Columbus, Ohio, in 1954. That was before they hired Alston. He offered me the job and I turned it down."

"This is a cold business," he mused. "But whatever happens you won't hear a word of complaint from me. It's been fine up till now."

He talked like a guy who was lost.

THE BOSTON RED SOX ONCE bought the whole Louisville franchise to get Reese, but Joe Cronin was the big club's manager and shortstop. He wanted to stay and he knocked Reese as "not being an American League hitter."

Ted McCraw of Brooklyn thought differently and he persuaded Larry MacPhail to pay \$60,000 for the then-smallish Reese. When Larry got his first look at Pee Wee he fumed.

"This guy isn't big enough to carry the money, much less be worth it," Larry raved.

But Reese got huskier and he was worth \$44,000 a year for a time. The Dodgers now pay him \$35,000 but that can't go on much longer, Reese says. "I still can play." He knows what happens to baseball veterans but he refuses to believe it.

It is, however, different with Bavasi, the general manager. "Reese?" he said when caught on the run later. "Oh, Pee Wee can stay with this club as long as he wants."

That's the standard answer. But press Bavasi and you get the one Reese doesn't want to hear.

"Pee Wee," Buzzy said quietly, "well, he has a good thing going for him in Louisville, you know. Storm windows. Insurance. too. Pretty good."

Harris Bats in Six of Nine Tiger Runs in Double Bill

By ED WILKS
Associated Press Sports Writer

Gail Harris, squeezed out of a job with the San Francisco Giants, has become Detroit's No. 2 gunner now that the Tigers have given him a home at first base.

In parts of three National League seasons, the 26-year-old lefty hitter had batted only .228, with 22 home runs and 68 runs batted in. Now, after 104 games in the American League, he's batting .285, leading the Tigers in homers (14) and triples (7) and is second only to Al Kaline in RBIs with 61—just five less than his total for 151 games with the Giants.

Wednesday he drove in six of nine Tiger runs in a day-night double-header split at Boston. He had a two-run homer and a two-run double as they won the nightcap 7-2, and singled home both Detroit runs in a 3-2 afternoon defeat.

Kansas City ripped New York 11-7, reducing the pennant-bound Yankees' bulge to 11 1/2 games over the White Sox, who won 2-1 at

Washington. Cleveland defeated Baltimore 3-5.

The A's scored seven unearned runs in the first off Johnny Kucks (8-7), who gave up six hits after Bobby Richardson's two-out error. Tom Gorman (4-4) won it in relief for the A's, who tagged four pitchers for 18 hits. Yogi Berra hit his 20th homer—his 10th consecutive year of 20 or more—and Mickey Mantle socked his 37th for five Yankee runs.

Southpaw Billy Pierce won his fifth straight and 15th of the year with a four-hitter for the White Sox, giving up a seventh-inning home run to Norm Zauchin. Nellie Fox's bunt and doubles by Billy Goodman and Don Mueller bagged it in the fourth against Camilo Pascual (7-9).

The Indians had 15 hits, but Cal McLish needed ninth-inning relief for his 14th victory. Don Mossi came on with a run in, the bases loaded and none out. He gave up an RBI single to Bob Boyd, then fanned Gene Woodling and Bob Nieman and got Joe Ginsberg on a grounder. Connie Johnson (6-3) lost it.

must be a public relations man, a psychiatrist and, at times, a mind reader. Of course, he must know baseball, too.

"It used to be that a manager just had to know baseball," said Fred Haney, 60-year-old pilot of the Milwaukee Braves. "Today he's got to make a closer study of his men. He's got to boost some, appease some and drive others. He should be aware of the players' personal problems and know something about their family life. Then, there's the press, radio and the general public."

It is Haney's belief, too, that today's players demand more freedom, more personal attention and are more inquisitive of a manager's strategy.

"A manager has to explain some of his moves to the players today," explained Haney, who has put in 41 years in baseball as a player, coach, broadcaster and manager. "Let's take a specific case."

"Johnny Logan was batting with Wee Covington on second and Bill Bruton on first. The count was three balls and one strike. Ordinarily, that's the time to hit away, but I gave John the take sign. He stepped out of the box and looked in my direction. He didn't want to take it."

"When he came to the bench, I called him aside. I could see he was hurt."

"John," I said, "Both Bruton and Covington have bad knees. They can't run fast. I didn't want

Eight Indicted in Gambling Ring in Indianapolis

By MERRILL SWEDLUND

INDIANAPOLIS (AP)—A federal grand jury ended a 12-day gambling inquiry Wednesday night weary from squeezing enough information from a parade of big-time gamblers to indict eight men in a three-million-dollar betting syndicate.

The jury decided it had enough evidence about jangling telephones in a room over a Terre Haute, Ind., restaurant to prove the gambling operation owes federal taxes on \$3,263,150 in bets. The indictments were returned Monday, two days before the end of the long procession of 17 witnesses, including 42 stubborn ones who dodged answers under the Fifth Amendment.

Don A. Tabbert, the boyish-looking district attorney who celebrated his 30th birthday during the investigation, said the trial of eight men may bring out proof of a much bigger handle—10 million dollars in 10 weeks during last fall's football and World Series baseball season.

A Treasury agents' raid last Nov. 29 closed the third-story Terre Haute gambling headquarters.

The accused—aged 41 to 70—were as belligerent as some of the gambler witnesses during the inquiry, cursing and shoving reporters when they surrendered in a group and posted \$10,000 bail bonds.

Tabbert hopes to have the case ready for trial in U. S. District Court in Terre Haute in November. Arraignment was set for Sept. 4.

Introducing . . . Grid Coach

LAVERNE JOHNSON

A new coach will be appearing on area gridirons this season as Laverne Johnson accepted head mentor position at Kane High School after completing a highly successful junior varsity basketball term there.

The 32-year-old Johnson succeeds Matt Rausch who was head coach at Kane for seven seasons. Rausch coached the Wolves to a 125-34 record.

Johnson graduated from Wilcox High with class of 1944. He served in the Army following graduation, then attended University of Pittsburgh, graduating in 1951.

His first teaching assignment was at Elderton where he was head basketball coach. Joining Kane faculty in 1954, he has taught and coached there for the past four years.

Assistant Kane football coach for years, he will continue as track coach next spring.

His 1956-57 Jaycee basketball team won 13 and lost 9, 57-58 squad captured 16 wins against 5 losses.

Pan American Games Rules Are Discussed

CHICAGO (AP)—The executive committee of the Pan American sports organization opened a three day session in Chicago today to discuss rules and to select officials for the 1959 Pan American Games.

A flag ceremony was to follow welcoming addresses during which the flags of all of the countries represented in the Pan American sports organization were to be posted.

T. Nelson Metcalf, technical director of the games and former athletic director at the University of Chicago, was to display a layout of Soldier Field where the track and field will be held. A 400 meter 10-lane track will be built to replace the asphalt track now in the field. Work will begin next month. The games are slated to open Aug. 27, 1959, and close Sept. 7, 1959.

Wildcats Stage Delayed Spurt In Playoff Game

After leading 8-0 for six innings, Marlin-Rockwell champions were made to buckle down in order to maintain their lead when Ludlow Wildcats started a seventh inning fury, scoring 5 runs followed by one in the eighth, only to lose to the Roller champions 8-6 in Municipal Stadium Wednesday night. The contest was first of the three-game Intercity League playoff series.

Denny Swan, elegant relief pitcher who has pitched high school, American Legion and semi-pro ball this season, stemmed a last-ditch Wildcat rally in the ninth, end of which saw three 'Cat runners stranded.

Jack "Muscles" Fulford belted a 375-foot homer over left-center field wall and Al Barber let a 350-foot bases-empty circuit fly into left field light stand to garnish the 12-hit attack.

Ludlow's last minute spurt got to Allen for four hits, which, together with three throwing errors, added up the five tallies, putting Ludlow back in business.

Fred Gray started for Ludlow and for four innings matched pitches with Allen.

Rollers will go to Ludlow Sunday for second game of the set.

Speaking of Sports

Northwestern Pennsylvania open Horse Shoe Tournament will be conducted at Erie September 7 at Glenwood courts. Qualifying rounds of 2 sets of 50 shoes, 10 a.m.-1 p.m. There will be 50 entrants, with three trophies to be presented in A and B divisions.

Lo, the king is dead! Rich Bonnell went down to defeat in "championship racing," regular feature of Erie Stadium speedway each Friday night. Bonnell was edged by not more than a headlight in the 10-lap duel race by Jimmy Dunn, first to beat Rich. This week Tom Dill who challenged Bonnell and lost, will be facing Dunn. Dill earned the right to meet Dunn by taking the 25-lap feature last Friday. Their match will be part of the regular show at Erie tomorrow night. Time trials start at 7:30, races at 8:30.

Chicago Bears, unbeaten in their first two pre-season starts, will arrive in Pittsburgh Saturday for a rather historic struggle with Pittsburgh Steelers. Playing the Bears will not be a novel experience for the Rooney men, but playing the Bears in Pitt Stadium will almost be a unique event. It must be a satisfying thing for owner George Halas to come out of a year's retirement and immediately lead his club to a 27-7 win over Chicago Cardinals and then a 3-0 victory over rejuvenated Philadelphia Eagles. This game is almost a "must" for old time pro followers; for they know that when Papa Bear starts roaring from the sidelines, there are bound to be fireworks on the field.

Ace Pittsburgh Pirate right-hander, Bob Friend, hit the century-mark in strikeouts for the third consecutive year on August 16 at Cincinnati. Bob fanned four Redlegs to up his total to 101 for the year. In winning that game, Bob recorded his 16th win—and now stands an excellent chance for winning 20 games for the first time in his eight-year Pirate career. His best previous mark was his 17-17 record in 1956. . . . Slugger Frank Thomas, who seems to hit his homers in clusters, is nearing the NL record of home-runs-on-the-road, held by Milwaukee's Eddie Mathews. The latter set the record at 30 in 1953. Thomas, who already has surpassed the best HR-figure in his major league career, hit 24 of his first 32 roundtrippers on the road—with six games coming up in Chicago, where Frank has hit five of his HRs. Thomas will be tendered a "night" by fans and friends on Friday, Sept. 5, when the Bucs host the Braves. Frank needs a homer in Milwaukee to complete the cycle of all NL parks.

Ninety-six dollars were paid out for predators killed in Warren County during July, according to Pennsylvania Game Commission. Successful trappers and hunters were paid this amount for probating four Grey Fox, 26 Red Fox, at \$4 each; and two Great Horned Owls at \$5 each. For the entire state, a total of \$4,744 was paid out of the fund for this same period to 441 claimants. Since beginning of the fiscal year, June 1, \$11,314 has been paid.

Beecham Scores Popular Verdict Over Bobby Boyd

MIAMI BEACH, Fla. (AP)—Jimmy Beecham of Miami moved up the middleweight ladder Wednesday night with a popular 10-round decision over Chicago's Bobby Boyd.

Beecham, formerly of Philadelphia, used a looping left to the head and a strong right to the body to win the unanimous decision of Referee Billy Regan and two judges.

Boyd, ranked No. 10, towered over the muscular Beecham and had a longer reach but his left jabs could not match Beecham's fevier but harder landings.

The 5-foot-8 Beecham, conceding 2½ pounds to Boyd, who weighed in at 161, said body punching won the fight for him but added "I had to use the right hand to the head to keep him respecting me." At that, his lefts piled up points.

Both appeared to tire toward the end of the nationally televised (ABC) bout.

Nats Directors May Decide Upon Shifting Friday

WASHINGTON (AP)—Directors of the Washington Senators may give Club President Calvin Griffith conditional authority Friday to seek American League permission to shift the team to Minneapolis.

The directors, at their regular monthly meeting, are certain to discuss the possibility of moving. "We have reached no conclusion," Griffith said. But he added in an interview that Washington's board probably would accept if Minneapolis came through with satisfactory terms on stadium facilities, rental, concessions and other items.

Griffith later reduced "probably" to "possibly." Still it was the first time he had acknowledged that much since reports started buzzing last week that the Senators were again contemplating a move.

President Eisenhower said at his news conference he was sure that if the team had a fighting chance of breaking into the first division, "this city would demand that they stay here."

And, he added, "I think they should."

Frick Predicts Third Major League Some Day

CASPER, Wyo. (AP)—Baseball Commissioner Ford Frick said Wednesday night it is inevitable that major league clubs will move to other cities and someday form a third league. But he said he hopes the Wash-

ington Senators don't move because "Washington is a good baseball town and it needs them."

Other one-club cities also should be allowed to retain their teams if at all possible, said Frick. But he told a news conference, "There are other cities in the United States today that are able to handle a major league baseball team."
